How to submit

Thank you for your interest in the VAST 2011 Challenge. Due to the very tight judging schedule all entries must in on June 29th 2011 by 11:59pm EST. Any entry received after that time will not accepted into the Challenge. There will be no exceptions to this rule.

Any entry with detected problems (for example: exceeding word, image, or video limits) will be contacted no later than June 30th 2011 by 3:00pm EST to rectify the entry. These changes must be received no later than July 1st 2011 by 3:00pm EST. If the entry is not received by this time or the detected problems have not been rectified then the entry will not be accepted into the Challenge. There will be no exceptions to this rule.

How to Submit

1. Download the appropriate answer forms for the challenge(s) you are interested in. For each challenge we provide an answer form called index.htm that you can save on your local computer and use to provide your answers either by adding text to the form itself or by linking to the separate files you will need to provide.

- a. [MINI CHALLENGE 1](#)
- b. [MINI CHALLENGE 2](#)
- c. [MINI CHALLENGE 3](#)
- d. [GRAND CHALLENGE](#)

2. Choose an informative nickname for your entry. Use a composite of your team's organization, the name of your tool, and the challenge you are entering e.g. UMD-SocialVis-MC1. Use the same challenge question number in naming your answer: MC1, MC2, MC3, GC. Do not use spaces in the name.

3. Create a directory with that name. Save all the materials for that challenge keeping the answer form file named "index.htm" as we already named it. The index file should link to all your materials. Use relative links so they will still work when your materials are moved to another directory.

4. Zip the entire directory and save it in a file using the same nickname. e.g. UMD-SocialVis-MC1.zip

5. The IEEE VAST Challenge 2011 uses the Precision Conference System (PCS) to handle the submission and reviewing process. PCS is available at <https://precisionconference.com/~vgtc/>. If you do not already have a login for the system you must register first (<https://precisionconference.com/~vgtc/preGetID>). Once you are logged into your account please choose VAST 2011 Challenge under "new submissions" and follow the instructions.
