COMPANY NEWS

Indigo Sol Skateboard Testimonials

Indigo Sol is garnering praise for its new board designs developed specifically for a new generation of skating girls. "Too often "girl products" mean pink, purple or princess, but we know tween and teen girls want something different." says Shayla Griffin, Indigo Sol's design team lead. "It's so gratifying to hear that it is making a difference in the lives of our customers."

hi my name is danae card, im 13 years old and im from decatur skateboarding is my life i don't no where i would be without it im probably the most determined wisest 13 year old girl you will ever meet lol my dream is to meet all of you Indigo Sol people and to have a good skate sesh i would love to get that opportunity. down here its 1 & million to get " known or make a difference " but im that 1% im working my rear off everyday and hopefully one day compete in classic combi etc.. it' difficult to really get that practice everyday that i need and want because in decatur there's only 1 skate park & its not the best but im not going to make any excuses. anyways i idolize you guys and what your doing to get that exposure girls need, like myself i want to create my legacy in the skateboarding world but i would love to just create my start first so that's why im coming to you guys for some help & guidance. i appreciate if you read this a lot ! thank you hope you respond back ! :) (im sorry i don't have a video of myself skating i hope to get a video soon one day when i can find a filmier to film me !!!!

— danae

After searching locally for a skateboard for our 7 year old daughter, all we could find were boards with immature, offensive or obscene graphics. I am pleased to have found your website and brand, however I am a little disappointed that the skaters in our local stores were not aware of your brand. We have ordered a board and will encourage others to consider your products. We hope our daughter enjoys skateboarding as much as your team seems to. Thanks for what you are doing.

— Carl C

Sup man. I think it's absolutely amazing what you guys are doing and how it has affected girls influences. I just wanna say that i give mad props!

— Torrence

MIP Operations

Those who have experienced a slip, trip, or fall will tell you that it only took a second for it to occur. Incidents occur when people think they're doing everything right, but are generally distracted from their immediate environment. Did you know that slips, trips, and falls account for about 20% of all MIP-reported injuries each fiscal year and 15% of all accidental deaths nationwide?

With the potential for icy sidewalks and walkways during the winter months, it is important to stay especially vigilant of your surroundings.

- Be cautious of slippery ground surfaces.
- Wear proper footwear.
- Always use handrails.
- Wipe your shoes off on building mats before going inside.

Employee Spotlight

John Torch is recognized this month for his continuing contributions as a transportation worker for Kasios Office Furniture. "Kasios is good to me, and I'm good for them," Torch says. And even though the hours are sometimes long and hard on the road, Torch is very happy at Kasios. "Sometimes you have to work some pretty odd hours, but I'm a company man through and through."

Charity Burger Takeover!

January 16th 6-9PM

Come eat a burger for a good cause! You don't need much more incentive than that! Roadrunner and Kasios are sponsoring this event that will feature 6 sandwiches from the menu, each benefitting a different local charity. Eat a burger and a portions of the proceeds will be donated to that particular charity. The more you eat; the more we donate! Thanks to Charles Burgers and Brews for supporting this cause. Come visit them anytime at 549 East Conch Street, Mistford.
